## Career Objective

Backend focused fullstack engineer with experience building reliable web applications using FastAPI, Spring Boot, React, and SQL databases. Strong fundamentals in OOP, APIs, authentication, deployment, and debugging.

## Education

|                                                                                                                                      |                                                        |

## Technical Skills

**Core CS:** Data Structures and Algorithms, Operating Systems, Networking Basics(routing, Security basics)  
**Backend :**FastAPI, Spring Boot, REST API Design, Authentication, Error Handling  
**Frontend :** React.js, Next.js, Tailwind CSS  
**DevOps :** Docker, AWS (EC2, S3), Git, Postman  
**AI/ML Tools :** Diffusion Models(basics), LLM integration  
**Databases :** MySQL, MongoDB, PostgreSQL

## Certifications

- Flipkart GRiD Hackathon – Stage 1 Participant
- AWS Academy – Machine Learning Foundations
- Business Development Specialist Internship – Completed in April 2024
- IBM AI for Everyone – Course on AI Concepts and Ethics
